Xitracs Assessment Module™

Xitracs™

ASSESSMENT | PLANNING | ACCREDITATION | CREDENTIALING

Xitracs Assessment Module allows an institution to streamline the collection, management, and disaggregation of student learning outcomes data. Instructors across the institution can easily navigate the Xitracs Faculty/Staff User Portal—minimal training is required. In just two clicks, they can access a scoring page that is tailored to *your institution's* culture of assesment!

- **Gen Ed, Program, and/or Course Outcomes**
- **External Agency Outcomes (e.g., ACEN, CACREP)**
- **Multiple Assessment Methods**
- **LMS Connector for all popular LMS systems**
- **Juried Assessment & Rubric Reliability Testing**
- **Academic & Co-Curricular Learning Outcomes**

Xitracs Assessment Module Features

LEARNING OUTCOMES

- Flexible module set up—Reflect your assessment plans by course, program, department, and institution.
- Outcome Mapping—Align course outcomes with higher level outcomes to streamline scoring. The stronger the alignment, the more meaningful the data!

METHODS & THRESHOLDS

- Assessment methods include Rubric linked to an outcome, Direct entry of student scores, Aggregate score counts (per threshold level), and Alignment with LMS gradebook column.
- Thresholds—tailor terminology and percentages to *your* assessment approach.
- Methods & thresholds can vary across programs, departments, and institution.

RUBRICS

- Rubric Library—easy import via Excel
- Juried Assessment Workflows: Assess the reliability of your rubrics with student artifacts and common rubrics.
  Use for longitudinal reporting on Gen Ed, Program, and/or External outcomes.

INTEGRATIONS

- Programs Module (when paired with Assessment Module):
- Auto-populate Program reports with outcomes data reports and tables.
- Auto-populate Program Review/Self-Studies with Program & Outcomes reports.
- Curriuclum mapping per program.
- Connect with your LMS Gradebook—Reduce Duplication of Effort
  Pull scores from your LMS Gradebook columns into Xitracs.
  Run scores through thresholds in Xitracs to produce longitudinal data.

Xitracs Assessment

REPORTS

- **Instructors-at-Large** (aka, Portal Users)
    Scores page offers details on their own students.
    Pull PDF reports with aggregate data for use with program faculty meetings.

- **Xitracs System Users**
    Exception and Gap Reports save time!
    Summary Reports by program and department.
    Filters for tailored reporting.

SUPPORT

- Comprehensive support by your assigned, US-based, Xitracs rep from implementation to launch!

Advantages

- **Increase IR&E, or staff productivity:** Collect pertinent information in a timely manner from the institutional subject experts, edit and present as required by any agency.

- **Enhancement of Institutional Effectiveness reporting**: Provides institutional Administration simple, centralized access to across-institution information so they can identify issues/challenges are and manage them appropriately.

- **Minimal Current Process Disruption**: Xitracs becomes an enhancement to the existing processes, not necessarily a replacement.

- **Focus on the Content**: Automatic Dashboarding saves you time to focus on the content.

As well as appropriately working with other Xitracs modules, the system also works with:

LMS: Canvas, Blackboard, D2L, and Moodle

AI Ready

SSO: ADFS, Azure Active Directory, CAS (Generic), Cisco Duo, LDAP, Okta, Onelogin, Quicklaunch, SAML, and, Shibboleth.

Security: The customer systems hosted by Concord USA, Inc. (most popular option) are located in two highly secure environments and mirrored constantly with frequent back-ups.

Other: No limit to the number of Users.
